Mr Lohit Sharma

Founder and Business Director

We, being a Destination Management Company, believe in conducting tours with ease and tranquility. We aim at not only providing excellent services but also to realize dream tour packages through different tour operators.

Being one of the leading B2B Destination Management Companies for around 12 years, it is worth mentioning that from where we started to where we are today, it wouldn't have been possible without the continuous support from everyone connected with us and it is our good fortune that we are associated with vibrant and energetic partners in the form of tour operators with whom we move ahead with high spirits and positive vibes.

Since inception, we have shared the delight, thrill and excitement with numerous individuals and our experience and hunger for innovations have made us better. Over the years, team Let's See has acquired considerable specialty in providing different tour packages and themes and it is our responsibility to conduct each and every voyage with perfection.

We consider the tourists as assets of our clients and we ensure their well-being as well as take care of their needs throughout the tours so that they leave with a smile on their faces. Our energetic team works hard to make tours enjoyable and successful so that the tourists enjoy every minute of their vacation. We pride ourselves in fulfilling our commitments and also guarantee the satisfaction of our guests as we believe in the principle of 'Atithi Devo Bhawah'.

Mrs Momita Sharma

Managing Director

I have been in the field of design since years and bringing a personal touch to our travel is what we strive for. It means travellers will stay under the radar and travel, eat and sleep the local way. This way, they would have the unsurpassed knowledge of an experienced guide, taking them out of the guidebooks and into a world they are waiting to discover.

Whether tourists are looking for thrills on one of our hundreds of tours or looking for a tailor-made journey just for them, we can make it happen.

We thrive to efficiently manage tours from beginning to end; looking after the finer details such as hotel, accommodation, meals, conveyance etc. We provide eloquent travel guides, escorting services and arrange all travel related needs and wants. Also, we provide up-to-date, accurate and timely information regarding destinations, modes of travel, accommodation, sightseeing, immigration, health and security rules about various permits required to travel in a particular area etc.

In short, we evaluate all available options to provide a unique and unforgettable travel experience to tourists during their journey.

Our Story

How our founder- Mr Lohit Sharma began this journey

Belonging to a middle class family, Mr Lohit hails from a small town in Tezpur, Assam. His father expired at a young age and due to financial difficulties, his mother provided for the family with lots of difficulties.

Mr Lohit did his schooling from Tezpur Government Higher Secondary and passed college from Tezpur College. He was a travel enthusiast from a very young age and was involved in various excursions undertaken by his college. Initially he was working with the Central Government and was a member of the Paramilitary Force. Later due to his interest in exploring new places and meeting new people, he decided to quit his government job and make his hobby a full time profession.

He began his career in tourism since 2007 and started working initially in Tawang, Arunachal Pradesh. He was working as a ground operator for hotel Tawang View. Gradually, he began expanding his business and on the 17th of September, 2010, he founded this company-Let's See Tour and Travels. He took the organisation from scratch to what it is today with the support of his hardworking wife- Mrs Momita Sharma, who is also the Managing Director.

Today, Let's See Tour and Travels is one of the top B2B Destination Management Companies in India and hosts more than fifty thousand tourists every year. Besides, it has generated employment for thousands of people through its business activities.

How did the name “Let's See” Come into being?

In 2010, while Mr Lohit was working as the ground operator, he once hosted a group of tourists from West Bengal. In this group, Mrs Momita had come to visit the different destinations in North East along with her family. During the entire tour they fell in love and eventually tied the knot! Once they were married they both planned to do something big in tourism with the thought – “We'll give our best and **Let's See** what happens!” Thus, the name “Let's See” was born and they officially started the organisation on the 17th of September, 2010.

Why
**CHOOSE
US**

01

The Ultimate Itineraries

We are committed to making travel unforgettable. Our itineraries strike the perfect balance between the structured and the spontaneous, with a focus on experiences only made possible when travelling with a local leader. Tourists desire freedom and flexibility as well as the highlights – that's why we craft tours that give them both.

02

Reasonably Priced Packages

We strive to organize our tours that are not too harsh on the pocket while ascertaining that there is no compromise in terms of desired services and facilities. No matter, what the destination is, our diligent tour managers customize the trip as per budget and requirement.

Known Local Personnel and Proficient Guides

We take our travel beyond the main streets and into the heart of a destination. Travelling with our expert local personnel and guides means tourists can focus on being in the moment, learning fascinating things about the destination instead of worrying about missing the last train out of town or where they can safely stroll. It is adventure travel with all the boring details taken care of, guided by a local who is well known to us and who wants to bring them into their world.

Own Fleet of Tour Vehicles

We are fortunate to have our own fleet of vehicles of different sizes that are well maintained and are driven by drivers with good communication skills. This is a major advantage as we can arrange drives to interior tourist locations which are set in far flung locations.

More Destinations, More Ways to Travel

We run thousands of trips in a range of styles and visit different hidden tourist spots with ease. And we do it all with our signature attention to detail and passion for real life experiences. Prior to finalizing a destination, our experts constantly scour the locations for sights and experiences so that the tourists can discover their new favorite place, or explore a guidebook staple from a new perspective.

05

06

Perfectly Sized Groups

Our travel groups are perfectly sized to give the feel of exploring a destination independently and big enough to create a good social vibe. Whether it's swapping stories at a local homestay or sharing a table at a hole-in-the wall restaurant, our group size opens up big opportunities others can only dream of.

Eloquent Coordination and Cordial Relation with Ground Staff

In any tour, no matter how big and lavish the package is, it is always the ground personnel or the 4th grade staff that are in direct interaction with the tourists. For instance, if the room where the tourists are staying isn't properly cleaned or the food is served cold, it's always the cleaner or the kitchen staff respectively who are responsible for the service and not the managers nor the restaurant or hotel owners. As such, to deal with such situations and to ensure proper customer satisfaction, we have built an eloquent coordination with the ground level staffs involved with our travel plans.

07

Secure Travel

100% Safety and Security Assurance

Most people are apprehensive of travelling to the North Eastern part of India due to security concerns. While many travelers have safety concerns, we take 100% responsibility of their protection and want them to enjoy the destination and not be held back by false narratives.

HOW WE *Travel*

The Iconic and Unexpected

Sure, the first time a tourist looks at a famous monument is incredible, but so is finding themselves in the middle of a village football game or sharing a laugh with a market vendor. Our trips combine the iconic with the unexpected to give them genuine insight into local life.

Authentic Food

We know that food while anyone travels is more than fuel, and our trips include meals that enhance their adventure and give them a taste of the local flavors. Think of a traditional dish in the hills of Nagaland or a hearty dinner with an assamese family in Assam - what a delight !

Stay Real

We think where a traveler lays his head can be just as immersive as what he sees in the day. Like spending the night at a fog covered cottage or beside a bonfire. No matter where they stay, we always choose locally run accommodation or the best that's available.

Local Connections

By sharing laughter, stories and adventures with local people, tourists learn about different ways of life. More importantly, they'll find common ground. We believe they will learn more about a community by staying and interacting with them rather than reading about them somewhere.

Traditional Handloom

During our tours to exotic locations, there's always a memory to bring back in the form of a souvenir. We have tie-ups with the best dealers of artefacts and handloom at every destination where the tourists can buy whatever they like at reasonable rates.

Government Tie-Ups

We have allied with certain government run organisations to enable them to effectively manage tourism through competent roles and responsibilities. They have vehemently associated with us as they were enthralled by our services and our efforts towards encouraging quality, standard and service in different categories which also benefits in promoting tourism in India.

“ It is our good fortune that we are associated with vibrant and energetic partners in the form of tour operators with whom we will move ahead with high spirits and positive vibes. We genuinely appreciate our associates and thank them whole heartedly. ”

Services

Hotel Reservations

In any tour, it is imperative that one gets good lodging facilities so that tourists do not feel deprived of rest and have a luxurious stay. We give special attention to the fact that our guests receive proper accommodation which gives them a feel of home away from home. At every tourist location that we cater to, the categories of hotels are 'Budget', 'Standard' and 'Deluxe'.

Moreover, most of the hotels are pre-booked by us which leads to tourists getting reasonable rates.

Besides, we provide proper kitchen facilities for those who wish to cook for themselves. We also hire cooks specialised in various ethnic dishes to cater to the tourists' delectable culinary needs.

Transportation Services

Beginning from the day tourists arrive at the airport or railway station and until the day they depart, our representative assists them in every part of the journey. We provide comfortable and luxurious vehicles owned by us with highly experienced drivers who guide the tourists on every part of their itinerary.

Depending on choice, we provide vehicles which suit the needs of tourists going to different types of terrains.

A fleet of white buses is parked in a lot under a blue sky with clouds. The buses are arranged in a row, and the text "Own Fleet of Transportation" is overlaid on the image.

Own Fleet of Transportation

We have our own fleet of transportation consisting of a wide range of vehicles that include Tour Buses, tempo travellers, SUVs, MUVs, Sedans, Hatchbacks and Luxury Vehicles. They are all well maintained and are available according to the need of the tourists. Having our own fleet of transportation is a major advantage as we can arrange drives to interior tourist locations which are set in far flung locations. For us, drivers are like Lord Krishna. Just like Lord Krishna rode a chariot and explained the Bhagwad Gita to Arjun in the Mahabharata, drivers drive around the tourists to different locations; not caring about any difficulties which he might face. This is just so similar! Besides, during any trip, our point of contact in any situation is mostly the driver as he is the one ferrying the tourists from one location to another.

Impact of Covid-19 on Tourism-How we Plan to Move Ahead

As the World Recovers from **Covid-19**, here's How We Make Travel **Possible!**

The almost complete suspension of domestic and international travel has been one of the major elements of the quarantines introduced during the COVID-19 pandemic. While this has brought misery for those who love to travel, it's brought decimation for airlines, hotels, and tourism operators. However, despite the challenges and uncertainties, we have the resilience needed to recover from the setbacks.

Taking care of Traveller Preferences

Although places have started to open up, travellers are apprehensive about safety, quarantine requirements and ever changing rules and regulations related to COVID-19. From providing basic information like weather to expert details about things such as hygiene rules for different airlines, state/country entry, etc., we keep our travellers updated.

For instance, many states in India require RT-PCR tests before allowing entry to visitors. Similarly, there are variations in quarantine and isolation rules which can confuse even the most seasoned travellers.

Prioritizing Health and Wellness

Health and wellness practices will no longer be a nice-to-have in a post-COVID-19 world. We will ensure higher standards to ensure the travellers' well-being, and will enable and expand “no touch” options.

Leveraging Online Resources

In the aftermath of the pandemic, there is a digital transformation across all industries.

We integrate online resources for our operations and have introduced features such as a web platform for communication, information sharing alongside making contact-less payment options available.

Social media platforms like Facebook and Instagram have been proactively leveraged for the lead generation.

Trust and Flexibility

We have introduced cashless bookings, subsidized cancellation charges etc. These are uncertain times and situations change rapidly.

In case a traveller is sick is not able to undertake a trip that is booked months in advance but has already been charged for it, we ensure a subsidized refund has been made.

New Add-Ons to Attract Tourism – Vocal for Local

As international tourism hasn't yet fully opened up for tourists, we are stressing on "*Vocal for Local*" with lucrative tour packages for tourists from all over India. North Eastern India is such a place which hasn't yet been fully explored by rest of India. We are indulging in immense promotion of all the destinations and bringing in add-ons in terms of itineraries, packages, costs and so on! We are stressing on leisure and adventure tourism in a big way. There are people who do not know about themes such as 'tea tourism', or have just heard about it but haven't felt it. Here we arrange an itinerary for the tourists where they visit different tea gardens and have a first-hand experience of the entire tea making process. Same goes for Silk tourism where they learn about the process of making silk clothes. And many more! Besides, we are expanding our team and taking in more skilled professionals so that there is no shortcoming in catering to customer's needs and keeping the thought of '*Atithi devo bhava*' alive.
